EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert A. Sabourin (Reg. No. 35,344) on 01/11/2007.

The application has been amended as follows:

- a. Cancel claims 1, 5, and 7.
- b. Add claims 8 and 9 as new claims as follow:

8. (new claim) A system for reproducing an original image on an image carrier, the system comprising:

means for generating a conjoined first and second sub-image, each representative for a portion of said original image;

means for defining an overlap region as a region where both sub-images give a contribution to the integral optical density of the image carrier;

means for dividing said overlap region in a partition of microdots;

means for establishing for each sub-image a peripheral edge in said overlap region;

means for assigning to at least one microdot an intermediate microscopic density substantially different from a minimum and maximum microscopic density of microdots; and

means for increasing said contribution by said first sub-image from said peripheral edge of said first sub-image to said peripheral edge of said second sub-image in a density increment smaller than half a difference between the minimum and maximum microscopic densities of said microdots.

9. (new claim) The **system** according to claim 8, **further** comprising:

means for generating for a zone in said overlap region by said first sub-image a first per cent of blank microdots;

means for generating for said zone by said second sub-image a second per cent of blank microdots, said second per cent being equal to said first per cent.

Specification

Content of Specification

2. Brief Description of the Several Views of the Drawing(s): See MPEP § 608.01(f). A reference to and brief description of the drawing(s) as set forth in 37 CFR 1.74.

The brief description of the drawings does not describe Fig. 9.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not show the limitation a method/system reproducing an original image on an image carrier comprise a step of increasing wherein "means for increasing said contribution by said first sub-image from said peripheral edge of said first sub-image to said peripheral edge of said second sub-image in a density increment smaller than half a difference between the minimum and maximum microscopic densities of said microdots" in combination with other limitations of the claim.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
